

Dualtron Thunder – Customization and Upgrades

I installed the following devices and features:

Purchased parts

- Fingerprint reader
- Disc Lock
- Motion activated Alarm System
- Kryptonite Heavy Duty Steel Chain
- Rear View Mirror
- Disc Lock
- Motion activated Alarm System
- Foldable Steel Bar Lock
- Helmet Lock
- Kryptonite Heavy Duty Steel Chain

Custom made (DIY) parts and features

- Handle bar lock to secure handle bar in folded position
- Lifting bar to improve "transportability" when scooter is folded
- Disc lock holder
- Chain Box/Storage Bag
- Carbon fiber rear fender
- Rear Rack
- "Shopping" Box - also used to bring my little Westie along.
The box slides onto the Rear Rack, is held in place by two foldable locks
an can be attached/removed without tools and within seconds.
It has a foam cushioned floor and two safety ropes with carabines to secure
my dog and prevent her from jumping ship
